Works Fast, Within Seven Days!

One Gallon - 128 Ounces (3,784 ml)

SOIL LOGIC™

READ ENTIRE LABEL BEFORE USE

This soil conditioner is an easy-to-apply concentrate which is designed to break up clay soils, improve drainage and reduce compaction. It can be applied on all soil types and on both warm and cool season grasses.

Safe For Use Around Children and Pets

APPLICATION DIRECTIONS

(Rate is 32 fl. oz. of product per 1000 square feet) A dilution rate of 1 part product to at least 5 parts water is recommended. For severe soil problems, the application rate may be safely doubled or tripled. Gently shake bottle before mixing. Apply with hose-end sprayer, tank or boom sprayer, sprinkling can or fertigation system. For typical dial hose-end sprayer, fill jar with 50% water and 50% product, set dial to 5 oz. per gallon. Apply material evenly over measured site. After application, rinse material off plant leaves and irrigate to move product into soil. Monthly applications for 2-6 months are recommended for best results. This product will not clog screens or nozzles and can be used in drip systems. Non-toxic, non-staining and can be used any time of year except when ground is frozen. Do NOT tank mix with sulfates or phosphates. **Shrub and Tree Plantings:** Mix 2 fluid ounces of product per gallon of water. Pour 16 fluid ounces of the mix into the planting hole for each gallon size of the shrub or the tree.

THIS BOTTLE TREATS UP TO 4,000 SQUARE FEET.

Contents: 25% Calcium Chloride
1% Polyacrylamide
1% Wetting Agent
73% Inert Ingredients (Water)

NONPLANT FOOD INGREDIENT • Not a fertilizer substitute.

CAUTION: DO NOT SWALLOW. PRODUCT MAY IRRITATE SKIN/EYES OF SENSITIVE INDIVIDUALS
