

Developed in Partnership with the US EPA
"Design for the Environment" PROGRAM.

100% ORGANIC
To the USDA - NOP
Organic Standards as verified
by Organic Certifiers.

Non-toxic & safe to use around people when used as directed.

USE AS:

- Soil Inoculant
- Foliar Spray
- Hydroponics
- Compost Teas

TurfPro

For a Naturally Safe World.

USA

IRON formula

Concentrated Liquid Ancient Humus Compost

Use on Trees, Shrubs, Grass, Vegetables, Flowers, and Crops • Indoor & Outdoor containers and soil

May aid in micronutrient uptake, increases water retention

Provides Trace Minerals, Soil Biology and Humic Acids

DIRECTIONS - FOR COMMERCIAL USE - SHAKE WELL OR MIX BEFORE USING.

Turf Application: Commercial Spray Application - add concentrate at a dilution rate of 4% product to 96% water in sprayer holding tank.

Hose-end sprayer application: Apply at a rate of 2 ozs. per gallon of water.

Coverage: Apply at a concentrated rate of 6 ozs. per 1000 square feet. For stressed or damaged turf, apply at a rate of 12 ozs. per 1000 square feet.

For golf course fairways, sod farms and hay farms, apply at a rate of one-gallon per acre. Treat in early spring, summer and fall.

Crop application: apply at a rate of one-gallon of concentrate diluted in water to cover one acre.

Plants and Shrubs Application: For large developed plants and shrubs, apply as a root drench with a dilution rate of 4 ozs. per gallon of water. For smaller, fragile plants, use a dilution rate of 2 ozs. per gallon of water. Repeat application every two to four weeks except when temperature falls below 50 F.

GUARANTEED ANALYSIS:

Chelated Iron (Fe)	0.50%
Iron (Fe)	0.50%

Derived From: Chelated EDTA and Composted Humus

FOR FLORIDA: We recommend that you follow the Green Industries BMP's at:
